To the Chair of the NAC Czech Republic  
Lenka Šulová  
And  
The contact person for the NAC  
Lucie Medzihorská

Brussels, January 11, 2018

**Re-recognition of the National Awarding Committee in Czech Republic until March 2021**

Dear Lenka,

Thank you very much for application for re-recognition of the NAC Czech Republic. Please accept my apologies for the delay in our response. Your application was discussed at our September (2017) meeting and the EAC has approved your application for re-approval of the NAC in the Czech Republic until March 2021. Many congratulations.

**Date re-approval: March 2017 for four year period until March 2021.**

As we discussed in the meeting of the (S)NAC Chairs in March 2017, we plan to use the four yearly re-recognition process to try to support improvements in quality of education in every country. We are very interested to hear from each country their plans for future development, and we will be using the annual report as the opportunity to hear details from the NACs of their plans.

For the moment, we wish you great success with the EuroPsy in Czech Republic, and we do hope that you are able to increase the numbers of certificates and names on the Register from the Czech Republic. Please let us know if there is anything more that we can do to support the situation in the Czech Republic.

Very best wishes,

Rosaleen McElvaney  
Chair of EAC
